

QUALITY POLICY STATEMENT

March 2023

“In the context of its broad business strategy, LSI is conscious that the Practice should not try to be ‘all things to all men.’ We therefore recognise that, in order to be effective in the sectors of the market we have identified (and knowing that these may change as the market changes), we need to be a certain kind of team, operating in a certain kind of way. Accordingly, LSI Architects is committed to maintaining and developing a process based office management system, which enables us to operate within a degree of certainty, and to set and meet our quality objectives. LSI’s management system has been designed to conform to the requirements of BS EN ISO 9001:2015 Quality Management Systems and to encourage client focused operation and promote continuous improvement of this quality management system and ourselves as a Practice.”

Ben Goode
