

## Great Yarmouth Borough Council Housing

Aspect Group Services works in partnership with Great Yarmouth Borough Council on a framework to complete successful kitchen refurbishment projects as part of a comprehensive kitchen upgrades programme. This initiative addresses the need to update outdated kitchens in residential properties, enhancing both the functionality and aesthetics of the spaces, thereby improving the overall living experience for residents.

Throughout the project, our team maintains open communication with both the council and residents, ensuring that everyone is kept informed regarding the progress. The process begins with thorough surveys to assess the condition of the existing kitchens and identify areas for improvement. Once the surveys are complete, our team swings into action, with the entire process typically taking around 10 working days per property.

Our team comprises skilled tradespeople, including rip-out specialists, carpenters, and plumbers. This diverse skill set ensures that every aspect of the refurbishment is handled with precision and expertise, adhering to the highest standards of safety and quality. The project features the installation of 119 premiere kitchens, each designed for durability with an average lifespan of 25 years.

The feedback from residents has been overwhelmingly positive, with quotes such as "We would like to thank the whole team for all their hard work and expertise" and "High scores given because they are well deserved." Residents also praised the professionalism and friendliness of our staff, noting that they were "polite and friendly" and maintained cleanliness and tidiness at every phase of the works.
